

UP CLOSE AND PERSONAL

Local Contractor Receives National Recognition

IN THE WORLD OF RESIDENTIAL REMODELING, Danville based Shawn Lober Construction is about to become a celebrity! The full service remodeling company, which specializes in kitchens and baths, is featured in the May 2009 issue of Remodeling Magazine.

On May 15th, Shawn was presented with two awards while in Washington D.C. The Remodeling Magazine presented Shawn Lober Construction the 'BIG50' award recognizing industry excellence, leadership and the very best in the nation. The Guild Quality Award is given to only four contractors out of the 'BIG50' and is solely based on customers' survey results. The company giving out the award said that Shawn's customers' responses were the highest they had ever seen, 100% of the 50 interviewed said that they would recommend Shawn's company to a friend or family.

"While spending 35 years building people's dreams to the highest level of expertise has been truly rewarding, receiving national recognition fills both myself and my employees with tremendous pride," said Lober. Shawn has fifteen loyal employees, six of whom have been with the company for ten years or more. This cohesive team creates a high level of customer satisfaction by working hand in hand from initial concepts through final walkthrough.

In 2003 he opened the design showroom, Kitchens of Diablo, which has been impressively successful from the day the doors opened. In addition to his wife, Shelley, there are three other highly sought after kitchen and bath designers who guide clients through the process of envisioning, creating and building their dreams.

Please visit Kitchens of Diablo Monday-Saturday 10 a.m.-5 p.m.
